NETWORKING TOURS

Networking Tours at IAA Summit

Increase visibility at the Summit

Address potential customers and partners

Showcase your innovations

Q&A sessions with the participants

85% of the participating visitors would like to have the offer again next time.
70% of the exhibitors would like to participate again in the Networking Tours.

IDEA:

Present your product highlights, services, and innovative solutions to decision-makers and experts once a day (September 9—12, 2025) for 10 minutes each, including Q&A time with the attendees. Per tour you meet up to 25 professionals.

When you participate in the Networking Tours, we lead the target group directly to your exhibition stand. During your tour slot, you may provide professional visitors with a compact overview of your area of expertise and innovations.

Each tour boosts the idea of showcasing innovations and solutions, but especially connecting the right groups of people. Use the time for networking and exchanging contacts with your target group.

» IAA MOBILITY 2025 Why be part of the Networking Tours?

IAA MOBILITY is the world's leading networking platform for the mobility industry. At the Summit, exhibitors and visitors present their latest technologies and discuss key issues of the mobility industry.

You can draw attention to your company specifically by taking part as a company/expert in the IAA MOBILITY Networking Tours (from September 9–12, 2025). Professionals from your target group register in advance for the tours and will be guided to you.

- › Address specific and qualified target group.
- › Communicate in-depth with business contacts on a personal level without stray losses.

- › Differentiation from competitors.
- › Highlight your innovation, product, or service.

- › Professionals and decision-makers from all over the world will be led directly to your stand.
- › Lead generation with a targeted approach to your potential customers and partners.

- › Benefit from more reach.
- › Communication of your participation through IAA MOBILITY channels.

- › Smart country mobility
- › Charging and refueling infrastructure incl. energy grid
- › Road safety

A vibrant, futuristic 3D architectural scene. On the left, a series of floating, translucent platforms in shades of blue, red, and orange are arranged in a stepped fashion. A white, sleek, two-wheeled vehicle is positioned on one of the upper platforms. Below it, a dark blue, rounded, pod-like vehicle sits on another platform. At the bottom, a dark blue, modern sedan is displayed on a large, light blue platform. The background is a deep blue with a large, light blue chevron shape pointing towards the right. The overall aesthetic is high-tech and modern.
